AMERICAN YACHT DEFEATED AT DETROIT

Canada's Revenue Still Grows.

Journal of the Empress Frederick.

Way Strike Conference at Montreal.

Manitoba Harvest Going Strong.

Winnipeg Carpenters Strike.

Past Trotting in Winnipeg.

Winnipeg, Aug. 12.

The Canadian yacht invader was defeated by the Cadillac in the international championship races at Chicago.

The Dominion revenue for 1900-1901 showed an increase of a million dollars over the previous year. Mr. Field predicted a surplus came from the federal services of the late Emperor Frederick were held at Cronberg the presence of many royal personages, including the King and Queen of Britain.

The railway brotherhoods held a conference with President Chauncey on a trackmen's strike.

Mr. Windsor, a farmer at White Plains, Man., has cut 2,700 acres of wheat.

The strike of the Winnipeg City carpenters promises to be protracted. One day are now out.

John Ogden won the matched race in Winnipeg, defeating long brooked in the match race.

Samuel H. has arrived in America.

Signor Crispi, the Italian statesman, was in.

John Jackson, the noted negro pugilist, is dead.

A \$600 electric car shop is being built in Winnipeg.

Eight light successes are reported on Orange River Colony.

The Regina exhibition opens to-morrow.

The business section of the village of Armstrong, B. C., was destroyed by fire.

The Shamrocks won the championship of the Winnipeg football district, defeating the Bisons.

The gold stolen from the Selby building works has been located, the suspect arrested and confessed.

A grand gathering of liberal unionists was held at Elmwood Palace, they were addressed by Messrs. Balguy and Chamberlain.

London, Aug. 11.—More encouraging news has come from India, during the week, and it is hoped violence on the Afghan frontier and elsewhere will be averted. The health of the American giving renewed cause for anxiety.

SAD BROWNING.

New Castle, Ont., Aug. 11.—Eustace Marshall, manager of the Paul T. Marshall grocery store, New York, and Charles and John Farcombe, aged 16 and 18 years, sons of Canon Farcombe, who were placed yesterday afternoon were drowned while bathing in Lake Ontario. The body of the elder Marshall was found last night, and that of John Farcombe this morning, but the remains of Beattie have not yet been found.

THE HARVEST IS GREAT AND THE LABOURERS ARE MANY.

Winnipeg, Man., Aug. 11.—It is estimated by conservative people interested in securing harvest hands for Manitoba and the Northwest, that about 250 people arrived up to yesterday on the excursion trains from Ontario. Today's train, which will be the last in the first series of excursions, will probably augment this number by 250. Word has been received at the department of agriculture that 9,000 persons from Eastern Canada are now in the province or the Northwest, and will arrive in a few days. Winnipeg's population was surprisingly increased for a time by the arrivals yesterday and yesterday. Three sections of the excursion trains arrived here yesterday with 45 coaches. Yesterday 20 sections arrived with 30 coaches, and this morning the two final sections will arrive with about 30 coaches.

CORRUPT NEW YORK.

New York, Aug. 11.—Several confessions have been made by men who have collected blackmail for the police from the poor rooms who live. The confessions are so numerous that the officials of the police department are amazed. The confessions have told the officials of the society for the prevention of crime, that when an intended victim became known at police headquarters the news was immediately telegraphed to the place at which the man was directed. Warrants have been issued for the arrest of two of the officials of the police department. It is an impossibility to remove the head commissioner of police, Murphy, except by the order of the governor of the state. Corruption in the police

department never ran so openly and with as much boldness as at present.

A MIRACULOUS ESCAPE.

Winnipeg, Man., Aug. 12.—Thomas W. Fisher, accountant of the Dominion Land Department here, met with a most dramatic accident on Saturday evening at about 7 o'clock when he was run over by an engine and five or six cars and is yet alive and pronounced by his physician to be out of danger. The old gentleman, who is about 60 years of age, was wheeling toward the city on the Pembina trail when it started to rain. Pulling down his hat he hurried to get to the city before the threatened thunder-shower broke. His hat obscured his vision and being very deaf he did not hear the whistle and bell on the approaching engine at the Canadian Northern railway crossing but rode on to the track immediately in front of the fast moving train. The pilot of the engine struck his bicycle demolishing it and throwing Mr. Fisher over 30 feet in the air. He fell on his feet between the rails and engine and cars passed over him before the train was brought to a stand still. He was picked up off the track and brought to his home in the Canadian Permanent block immediately, and it was thought that he was fatally injured. Miraculous to relate he was practically unhurt and fortunately except a severe shock and a few bruises he is as well as ever.

LOCAL.

Two coaches of Galicians came in Friday.

Thos. Bellamy returned Friday from Winnipeg.

Dr. Wilson returned Friday from a short outing at Banff.

The directors of Strathcona's summer fair met next Saturday to arrange a date for the holding of their exhibition.

Regular meeting of the W. C. T. U. will be held at 3:30 p.m. on Wednesday next, at the residence of Mrs. J. McDonald.

A large number of delegates from the States came north on Friday's train and got off at different points on the C. & E.

We have in our possession a potato of this year's growth, the size of a hen's egg. The peculiarity about the tuber is that it grew among a lot of old ones in the cellar of P. Blatchford's residence.

An auction sale of N. W. M. P. horses, saddles, harness, bolt-sleighs and buckboards will be held at the N. W. M. P. barracks Fort Saskatchewan on Tuesday, August 20th. W. S. Robertson conducts the sale.

R. W. Sutter received, on his return home from Winnipeg, the sad intelligence of the death of his mother, Mrs. Jacob Sutter, at Warman, Ont. Mrs. Sutter, was 63 years of age and died after a brief illness, from inflammation.

A. L. Furman, a well known rancher of Cardston, intends bringing up next spring a large band of horses and cattle to go into ranching at the Jasper House, or probably along the Lepidic or Buffalo Dung river. Mr. Furman has been in town for some two months disposing of a band of horses which he brought up.

The new steam tender for the big gold dredges at work on the river was successfully launched on Saturday from Walter's yard. The new boat is christened the Beaver and is a large and strongly built steamer. The machinery is being placed in position and the steamer will be in use in about 10 days. The Beaver has a 16 ft beam and is 90 feet over all, with a 70 foot water line.

Touching on the idea that some of our many newspaper friends in Manitoba seem anxious to convey at this time that the Edmonton district is not a good place to grow wheat, or at any rate to grow good wheat, it may be mentioned that there are five roller mills within a distance of 60 miles still running on last year's crop; besides the large amount which was exported. These mills are at Fort Saskatchewan, Edmonton, Strathcona, Leduc and Wetaskiwin. As to quality of wheat made it may be mentioned that while the local demand for first class flour is supplied by the local mills, McDougall & Secord had to import a week or two ago a car of second class flour from Winnipeg for their northern trade, the local mills not being able to supply the flour of that quality.

—Mr. and Mrs. C. W. Sutter returned from Winnipeg Friday night.

—Colin Fraser is expected in from the north with his fur in a few days.

—R. Secord, of McDougall & Secord, and Jas. Ross, of Ross Bros., are at the Landing.

—J. W. Shera has been laid up for some weeks, but is now able to be around again.

—Bert Johnson, of the Merchants bank, is on relieving duty at the Wetaskiwin branch.

—Miss Maggie Young left this morning for Battle Lake to resume her duties as teacher of the school there.

—Mrs. E. Lecky and Mrs. B. Connor will leave in the morning for the coast on a visit to friends in Seattle.

—Mrs. Neil Stewart, mother of Mrs. C. W. Sutter, came in from Winnipeg Wednesday with Mr. and Mrs. Sutter.

The Fort Saskatchewan mill is now running having resumed operations a visit of the month. They are buying grain.

—Wm. Sharman, of Souris, is in the district collecting samples of all useful grasses, both native and cultivated, for exhibit in the offices of the C. P. R.

Among those leaving in the morning on the excursion to the coast are Mr. and Mrs. J. B. Morris, Mr. and Mrs. Hillman, Mrs. Kinnaird, Miss Milligan, Miss Lowther, the Misses Anderson, G. Berg, Mr. and Mrs. Carruthers, Stony Plain, and Donald Ross, Jr., a number will also leave from Strathcona.

The Virden baseball team, the champions of Manitoba, visit Nelson, B. C., this month to play a series of games there. The local club have written them with a view to arranging for an extension of their trip to Edmonton in order to play a game or games with some of the teams here. A reply is now awaited.

Messrs. Alex. Ross and E. Palmer returned last week from the Jasper Pass where they had been looking up a location for a horse ranch. They left here in the spring, about the middle of April, having come from near MacLeod. On account of the excessive rains they found travel difficult, the rivers and creeks being high. In spite of these difficulties they went through to the foothills of the Rockies at the foot of the Jasper Pass and spent some time in the country along Prairie Creek. They are satisfied that the country is well adapted to horse and cattle ranching. The weather was all that could be desired though somewhat wet. All the horses that are up there wintered well and are in good condition.

E. Raymer returned Friday from an extended trip to the coast and north to the southern extremity of Alaska, where he, in company with several other gentlemen is interested in gold, silver, and copper bearing quartz, located on Prince of Wales Island. W. A. Oliver accompanied him from Edmonton, but remained at the island to assist in prospecting together with N. G. Flater, a former Edmontonian, whom Messrs. Raymer and Oliver went north to meet. The trip from Seattle north, after Vancouver Island is passed, Mr. Raymer describes as one of rare beauty. Indeed it is claimed by travellers to exceed in beauty the famed valleys and mountains of Switzerland. The mountains run up and overhang the sea, and farther north after the coast line is reached, winding rivers run in and out among the gorges, broadening often into pretty, peaceful lakes. The trip up the coast occupies three days from Seattle to the comfort of the little ocean steamers make the trip one of exceeding pleasure.

Mr. Flater was here at Holles, one of the ports on this island. The principal claim in which he and his associates are interested is the Big 36' led at Grindall, a short distance from Holles. The claim has proven to be very rich in gold and copper, principally copper. Other prospects were made and an outcropping struck which assayed \$16.44 in gold and silver. A number of claims are being staked, it being the intention of those interested to do all their prospecting and locating work this summer and during the winter do development work preparatory to realizing on their properties. Ore can be shipped from the southern down the coast, below Vancouver Island, for \$1 a ton. On his way home Mr. Raymer visited his brother at the famous summer resort of Crested Island, near Los Angeles, where he spent a number of days. During his trip he travelled some 7,000 miles and never had occasion to use his water-proof.

## BRITAIN'S WAR LESSON.

The Times publishes a poem by Rudyard Kipling entitled "The Lesson," embodying the idea that Great Britain has learned from the war that her military system is all wrong, and has had, in the words of one line, "All her most holy illusions knocked higher than Gulliver's kite." Following are some of the stanzas:

It was our fault, our very great fault, and not the judgment of Heaven, We made an army in our image on (in island) at sea by seven.

Which faithfully mirrored its maker's ideas, equipment, and mental attitude.

And so we got our lesson, and we ought to accept it with gratitude.

We have spent one hundred million pounds to prove the fact once more, That horses are quicker than men, And horses have four legs and men have two legs, and two into four goes twice.

And nothing over, except our lesson, and very cheap at the price.

It was our fault, and our very great fault, and now we must turn it to use.

We have forty million reasons for failure, but not a single excuse, So the more we work, and the less we talk, the better results we shall get.

We had an Imperial lesson; it will make us an Empire yet.

## THE VOICE OF JUSTICE

Calgary, Alberta.

It is a well known fact that the foreman who stands well with his inferiors, may hope for no promotion from his employer. But that, to reduce expenditure, eliminate numbers, lower the standard of living, and gradually to increase the individual quantity of labor, is the task, set before every man, who hopes to climb the industrial ladder. And he who takes from his fellow man everything which makes his lot that of the "beast of burden," is the task, set before every man, who hopes to climb the industrial ladder. And he who takes from his fellow man everything which makes his lot that of the "beast of burden," is the task, set before every man, who hopes to climb the industrial ladder. And he who takes from his fellow man everything which makes his lot that of the "beast of burden," is the task, set before every man, who hopes to climb the industrial ladder.

Calgary, as a Western Centre, is interested in these men, as well as in any and permanent transportation. And it is not in her interest that the C. P. R. should become the master of the portion of the country which is her country, nor is it in her interest that the C. P. R. employees should force the company into paying wages, out of proportion to existing conditions, and cost of living. We have no use for strikes and lock-outs in this country, and the property expressed judgment of an informed public, would soon do away with the necessity for such extreme measures.

## HARVEST HELP PROBLEM

The Prairie belt which seemed to be confronted with a very serious problem in the scarcity of labor for the harvest, C. P. R. conditions this season have favored a remarkably rank growth. With the large increase in the crop area and the enormous bulk of straw to be handled, the harvesting of our grain crops will entail an immense amount of labor upon the farmers. It is one of the features of our mode of farming in the west, that a large number of extra men are required during harvest. Where wheat or grain is almost the sole interest, a large number of the farmers, the year's work is crowded into a short period. A farmer who may require half a dozen men during harvest, can get along with one man during a considerable part of the year. One way to overcome this situation would be to grow less grain, or give more attention to stock, etc., which would give employment for more men during other seasons of the year.

This, however, will not help the present situation. It is estimated that we will require as many as 20,000 hands from outside in addition to the usual home supply. Two years ago, with a smaller crop area, and a much lighter crop, over 10,000 persons were brought in from the east to assist in the harvest. This would indicate that the 20,000 estimate is not really excessive. Men are well employed in the east this year and wages are high there, so that the prospect of obtaining the required assistance from the eastern provinces does not seem encouraging. It has been suggested that a number of men could be procured from the new settlements in Northern Alberta, but the surplus supply there, say, would be limited. Possibly the Japanese population of British Columbia, who are a thorn in the side of the labor element of that province, might be drawn upon to a limited extent, but it is doubtful if they would be of much service in the harvest field. The main supply of useful farm help must be drawn from the older provinces or from the States to the south, and, if they cannot be procured in that direction there will undoubtedly be a shortage. The States immediately south of the boundary also require a large number of extra harvest hands at about the same time as they are wanted here, so that we cannot get many from that quarter. If an effort is to be made to bring men from the States, it will have to be done in districts further south than the border States.—Commercial.

## WHEAT CUTTING

A Winnipeg Tribune despatch from Fort Qu'Appelle of Aug. 1st says Robert Kearns commenced cutting grain Aug. 1st and will have his crop cut by the end of next week, when wheat cutting will be pretty general throughout this locality. Crops are the largest and heaviest in the history of the district.

## PURCHASE OF ARMY HORSES.

London, Ont., Aug. 4.—Capt. E. R. Maudsley, a retired officer of the Queen's Buffs, who is here with veterinary horse inspecting and buying remounts, was asked by a reporter how many horses he had bought so far. "I have bought about 1,600 myself," said the captain. "The remainder of those shipped have been bought by Col. Dent, who was in London some weeks ago. We shipped 800 on July 24th on the transport steamer Rembrandt, and on July 26th, 1,000 followed on the S. S. Indian. There were two previous shipments. The next is on Aug. 14th, when 800 or 900 horses will be shipped. Of these about 200 will have been bought by Col. Dent, who is now at Calgary. I expect to ship 1,000 more, and have many more to examine to-morrow."

## MANITOBA CROPS.

Montreal, Aug. 5.—The Canadian Press is making big preparations to move the Manitoba harvest. Mr. Thomas Tull, manager of Transportation, informed your correspondent that they were turning out engines and cars as fast as possible to meet the requirements of the harvest. So soon as they knew it was assured, they contracted for their own works for engines and cars to be delivered in time for the movement of the crop. Their own shops were also working to their full capacity, and every car is being repaired. Arrangements were being made so that during the months of September, October, November, and December they might handle a train load of grain every hour at Port William, provided vessels would be got to haul it from the elevators. They had a storage capacity of 5,000,000 bushels in their elevators, and the grain must be moved from the elevators in the fall to enable the road to continue bringing it down during the winter. The officials at Port William were prepared to handle 500 cars per day.

The Grand Trunk is also in a state of preparedness, having just completed a lot of 300 new box cars.

Aug. 8th, 1901.

London, Aug. 1.—A despatch from Lord Kitchener, dated from Pretoria to-day, says "French reports that he has received a letter from Kitchener, the Boer commander, announcing his intention to shoot all natives in British employ, whether armed or unarmed. Many cases of cold-blooded murder of natives in Cape Colony have recently occurred."

A correspondent writes us telling of an attempted assault which he chanced to interrupt near the south end of the bridge. The participants were unknown to him. They were roughly handling a young girl but on seeing him they desisted and the girl made her way to the other side of the bridge. He advises that it would be well for all having German of Gailher escape. He advises that it would be well for all having German of Gailher escape. He advises that it would be well for all having German of Gailher escape.

To Save Her child.

From frightful disfigurement Mrs. Annie Gallagher, of La Grange, Ga., applied Buckle's Arnica Salve to great scars on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, Scalds and Piles. 25c. Cure guaranteed by D. W. Macdonald, Druggist.

## PARTRIDGE HILL.

R. Houston is building a large addition to his house.

A quiet wedding took place at the home of Mr. R. Houston on the 23rd inst., when Mr. Walter Flintoff and Miss Annie Smith were married.

The weather has been dry and hot for the last eight days and the farmers are taking advantage of it to put up hay.

Miss Pollard, of the Flatt, is visiting friends in this section.

Miss Lilian Wallace was successful in passing her examination for third class certificate.

## INMATE.

Two lads who were arrested last week by Sergeant Evans, of Red Deer, have returned to destroy the two young machines belonging to Messrs. Burke and Evans that were found hidden in their respective fields some time ago.

The creek south of town, by the railway track is getting to be quite a fishable bathing resort these warm days.

The southern part of Little Red Deer was hit on Monday by one of the most terrific hail storms ever witnessed. It came from the north-west, and about one o'clock p.m. started just before the mouth of Eagle Creek, thence across the southern half of the town, and in about a quarter of an hour, the rain ceased.

The hailstones were as big as small hen eggs and as the storm was accompanied by a very strong wind it swept everything in the way of crop before it. Scores of acres of very young grain were cut just as if they had been run over by the mower.

## STRATHCONA.

Handkerchiefs, Aug. 9th.

The contract for the Episcopal rectory in Strathcona has been let to Wm. Deitz and work will be begun without delay.

Mrs. Daley has purchased the stock of general merchandise of her husband's estate and will shortly reopen the store for business.

A meeting of the directors of the South Edmonton agricultural society will be held at Strathcona Saturday night at 8 p.m. to decide as to a date for holding the fair.

Mr. and Mrs. Robert Wainright have been very ill and during the last week Mrs. Wainright's life was at times almost despaired of. We learn this morning that there is marked improvement in the condition of both of them.

The public school re-opens on Monday, Aug. 13th.

The Royal hotel property has been sold to J. Vail.

As will be noticed in the report of the last meeting of the town council the rate of taxation for this year has been fixed at 7 mills for general purposes and 10 mills for public schools. This is one mill more than last year's rate and one less than the year before.

It is noted the rate of about one mill in excess of \$400000 was not voted at next week would require. If the rate is defeated all further drainage work for this season will have to wait.

On Tuesday evening last as Mr. Morris, of the Rabbit Hill settlement, was returning home from Strathcona he lost a horse by drowning. The White Mare is still a raging torrent and is forcing Mr. Morris' horses away beyond their depth. One was drowned and the other was saved with the greatest difficulty. All the grocers and mail for some neighbors were lost and also \$1500 in cash which Mr. Morris had on his person at the time.

Mr. Morris happened along and helped the unfortunate neighbor; else his horse and probably his own life would have been lost.

## LAKE ELEVATORS.

A Port Arthur despatch to the Free Press says:

D. G. King arrived home from Montreal on Sunday night, where all arrangements were completed for the erection of an annex elevator for storage purposes. Mr. King stated that the elevator would at least have a capacity of 500,000, and it might probably be 700,000 bushels, thus giving the C. P. R. a storage capacity of over 1,000,000 bushels at Port Arthur.

The elevator will, in all likelihood, be built of cement and it will be made as fireproof as possible.

The Canadian Northern will also erect another elevator at Port Arthur but not in time for this season's crop.

## WAR NEWS.

London, Aug. 6.—Kitchener telegraphs the war office from Pretoria as follows: "Since July 29 the columns report: 45 Boers killed, 15 wounded, 720 prisoners taken, and 57 burghers surrendered; one pom-pom, 141 rifles, 8,650 rounds small arm ammunition, 182 wagons, and a large number of horses and stock captured. The casualties on our side are included in all that were reported separately during the past week."

"Visitors have been driven across Ollant's river. Kitchener and Allard are moving against the Boers in the Mafekingberg. The British, under Scott, inflicted a heavy loss on the Boers, near Lategan."

## MANITOBA CROPS.

Free Press report.

Portage la Prairie, Aug. 6.—Wheat harvesting is not yet general in this district, but by the end of the week the majority of the farmers will have commenced. On Monday next the rush of work will be on. Some oats, wheat and barley have already been cut.

On the farm of W. Smith, on the island, the harvest is in full progress. South of the river the crops are somewhat further advanced than on the older settled plains. Binder twine dealers are kept busy filling orders. One dealer said to-day that there was a slight danger of a dearth of twine and as high as 14 cents a pound has been paid here for it. No serious results are apprehended from lack of help as it is thought that a large number of eastern harvesters will stop off here; the Portage Plains being so widely known as a farming centre.

Brandon, Aug. 6.—The fields of wheat in this vicinity are now of a golden yellow color or rapidly turning that way. Mr. Morten, of Rounthwaite, will commence cutting on a two hundred acre field in the morning. Cutting will be general next Monday or Tuesday. No damage to the crops has been reported here.

Rapid City, Aug. 6.—The wheat harvest commenced here yesterday on Samuel Grummett's farm.

Mr. W. B. Carter, of Prairie Grove, ten miles south of the city, is starting to cut wheat to-day.

Souris, Man., Aug. 6.—The crops in this district are looking splendid and the fields are beginning to assume their golden appearance.

Wheat cutting will commence this week and should be general next week.

Morden, Man., Aug. 6.—The weather is cool and harvesting is proceeding favorably. Many are cutting their wheat. Several farmers have oats and barley in stock. One farmer in this district threshed and sold oats before August 1. More men wanted.

Regina, N. W. T., Aug. 6.—The bright sunshine of the past few days has ripened the crops amazingly. Barley is already being cut. The binders will be at the wheat next week, and by the end of this month harvesting will be general.

## THE TRACKMEN'S STRIKE.

Regina Leader: There is no new development in the trackmen's strike. Public sympathy is manifesting itself more and more on the side of the men. A few car loads of Italians have passed through Regina to western points, and the C. P. R. is sparing no effort to supplant the men on strike. The section men received notice to quit the section houses on the 1st of this month, and it was feared these evictions would lead to disturbance, but so far all is quiet. Indeed the conduct of the men has been patient and exemplary throughout. The "riot" at Carleton Place has caused much amusement, a live colonel, a non-com, a posse of N. W. M. P. constables armed with revolvers, Regina's former lawyer, Hugh H. Gibson, to represent the C. P. R., Mr. Gordon, another lawyer, to represent the defendant, and two of his majesty's justices of the peace in and for the Northwest Territories—all requisitioned to fine a man \$3 for walking on the track. At Rat Portage the hotels refuse to supply food to the C. P. R. detectives and have been fined for so refusing, while at Revelstoke, the conduct of the detectives caused such public disapprobation that they have had to be removed. Down east Mr. Wilson, the chief representative of the men, is being pursued for libel; while in the west there is great dissatisfaction that the N. W. M. P. are being used to protect the scabs and Italians who are supplanting the trackmen. In the meantime there are parades of the track in a very rocky condition, and the engineers are grumbling, both loudly and deeply.

The MacLeod Advance says that Col. Dent bought about 100 horses at that point on Aug. 5th.

## BRIEF SKETCH OF THE EDMONTON

## PRESBYTERIAN CONGREGATION

In response to repeated requests from the pioneer Presbyterian settlers in the Edmonton district the home-mission committee of the Presbyterian church of Canada sent out the Rev. A. B. Baird, M. A., B. D., as their first missionary. He is now Prof. Baird, of Manitoba College, Winnipeg.

Mr. Baird is a native of Ontario, a graduate in arts of Toronto university, in theology, of Knox College, Toronto. He obtained his degree of B. D. from the Free Church College, Edinburgh, and immediately upon his return to Canada came under appointment to the Edmonton district. He shared the hardships of the trail with the early settlers travelling by buckboard from Winnipeg to Edmonton. He landed in Edmonton in October, 1881, and began work in the mission, housing himself in the old Fort Saskatchewan and surrounding districts of Fort Saskatchewan, Belmont, Sturgeon river and Clover Bar.

The congregation was organized in November of the same year with the following charter members: Mr. Hugh McKay, Mr. D. S. McKay, Mrs. P. H. McKay, Mrs. A. H. Huchings, Mr. Jas. A. Petrie, Mr. Geo. A. Blake, Mrs. Jas. Goodridge, Mrs. Thos. Henderson, Mrs. A. Omande. The isolation of the settlement forced any rapid growth if any at all. Notwithstanding this the small nucleus of a congregation with warm and energetic adherents decided to build a church and the present building was erected and opened for service in the fall of 1882.

In the summer of 1883, Mr. Baird was duly called by the congregation. The Rev. J. S. Robertson, D. D., and Prof. D. M. Gordon, of Halifax, who were then ministers of Knox church, Winnipeg, were specially delegated to induce him into the charge, which was done in September of that year. He remained in charge until his appointment as principal of the projected Indian Industrial school at Regina, in order that no vacancy might occur a successor was appointed by the home-mission committee at its meeting in March of 1887. The man chosen was D. G. McQueen, B. A., of the gradulatory class of that year of Knox College, Toronto. He reached Edmonton on June 27th, and Mr. Baird left August 16th, to temporarily take up the mission of St. Augustine in Winnipeg and also teaching in Manitoba College. He remained in Winnipeg permanently and was afterwards added to the professional staff. The growth of the congregation was from the nature of things slow until after the completion of the Calgary & Edmonton railway in Aug. 1891, when a decided advance took place. In 1892 the present manse was built. Early in 1893 Mr. McQueen was duly called by the congregation and inducted in charge by the Presbytery of Calgary on May 1st, of that year. On April 1st, 1894, the congregation reached the status of a self-sustaining church, and progress is still taking place in an undiminished way. The little group of nine has grown until the membership now is 103. In view of this the sketch may be closed with the words "Who hath despised the day of small things."

## LAYING THE CORNER STONE.

The corner stone of the new Presbyterian church is being laid this afternoon by Rev. Dr. Robertson, superintendent of Presbyterian missions. After the ceremony of laying the stone a social will be held on the grounds of the old church.

While the tea is in progress Mr. S. Jones renders five solos as arranged for the p-p-organ from the celebrated works of "Battista." The complete programme is:

Piano: "Te solo, Mr. Parford. "Qua'ette "God is a Spirit," Bennett, Miss Richardson, Mrs. Astley, Mr. Heathcote, Mr. Potter.

Address:

Solo, "A Dream of Paradise," Mr. R. McIntyre.

Pianoforte solo, Sonata in B. Flat, "Mozart," S. Jones.

Address:

Solo, "O Loving Words," Mr. Heathcote.

Duet, "Ab'le with me," Mrs. Astley and Mr. Heathcote.

Address:

Pianoforte solo, "Pathétique," Beethoven, op. 13, "Allegro in E. Flat and G. Flat," Haydn, Prof. S. Jones.

Quintette, "The Homeland," Miss Richardson, Mrs. Astley, Mr. McIntyre, Mr. Reid.

"God Save the King."

The following is a list of articles deposited under the corner stone of the new Presbyterian church building:

A brief sketch of the town of Edmonton.

A brief sketch of this congregation.

A copy of the roll of charter members.

A copy of the present roll.

The last annual financial statement.

A copy of the "Edmonton Bulletin."

A copy of "The Edmonton Post."

Current Canadian silver coins.

Photographs of the interior of the old church, Prof. A. B. Baird, M. A., B. D., Rev. G. A. McQueen, B. A., a reproduction of an oil painting of Fort Edmonton executed in 1867.

## BANISHING RELIGIOUS DOERS.

A proclamation was issued by Lord Kitchener on August 7th, in accordance with instructions from the Imperial government, the governments of Cape Colony and Natal concurring. The proclamation says all commandants and field cornets and leaders of armed bands, being burghers of the late republic and still engaged in resisting His Majesty's forces, whether in the Orange Colony and the Transvaal portion of His Majesty's South African Dependencies, and all members of governments of the late Orange Free State, and Transvaal, shall, unless they surrender before Sept. 15, be permanently banished from South Africa. The cost of the maintenance of the families of all burghers in the field who have not surrendered by Sept. 15, shall be recoverable from such burghers and shall be a charge upon their property realizable and immovable in the two colonies.

## SKETCH OF THE TOWN.

A brief sketch of the town of Edmonton prepared for deposit in the cavity underneath the corner stone of the new Presbyterian church when it was laid on August 12th, 1901. A. D. Edmonton was established as one of the ports of the Hudson's Bay Company early in the Nineteenth Century. It remained merely as a post of the company until the seventies or early eighties of the century when ex-employees of the company and others branching out in various pursuits formed a settlement which later became the nucleus of the present town of Edmonton.

In A. D. 1881, and previous to any ordinance providing for the support of schools out of public funds, a school building was erected on the southwest corner of McKay avenue and Fourth street, and a teacher employed and paid out of funds provided by private subscription.

The increase in population of the district was comparatively slow until the completion of the Calgary & Edmonton railway to its present terminus across the river Assiniboine in 1891, when a marked advance began resulting in the incorporation of the town of Edmonton on the sixth day of January, A. D. 1892, with a population under one thousand. The present population is a little over two thousand five hundred.

The first assessment of the town shows a valuation of \$673,694. The assessment for the current year is \$1,504,479.

The first mayor of the town was Mr. Matthew McCauley, one of the early settlers, who occupied the chair for three successive terms. His successors in order were: Dr. H. C. Wilson, Mr. O. Gallagher, Mr. John A. McDougall, Mr. W. A. Johnston, and Mr. W. MacKenzie, B. A., who is now serving his second term in the office. Associated with him in the council are Messrs. Robt. Lee, J. T. Blowsy, Alf. Brown, W. T. Henry, J. H. Morris, and W. A. Johnston, with Mr. George Knapp as secretary treasurer, Mr. N. D. Beck, H. C., as solicitor, and Dr. E. A. Bradshaw, medical health officer. T. A. Stephen is auditor, J. S. Cowan, police magistrate, Jas. McDonald, auditing and fire inspector, and E. A. Grierson, market clerk. In April A. D. 1900 a combined railway and traffic bridge across the Saskatchewan at Edmonton was completed, and at the date writing a railway connecting Edmonton with the Calgary & Edmonton railway is in course of construction, which it is expected will be completed by the month of October of this year and will mark a most important epoch in the history of the town.

## TOO POLICEMEN

Regina Leader. At Moose Jaw we saw a mounted policeman (on foot of course) guiding and seemingly taking care of a gang of men who had arrived to take the place of striking trackmen. He was hunting up the C. P. R. agent to get the key of a car, but all he showed him was a pair of trousers. We felt inclined to ask him why the government should provide over-seers for C.P.R. gangs, and whether the company was unable to look after its employees, but we recoiled in time the improbability of interfering with officers of the law on duty.

We ask the questions here. Why is the time of the mounted police taken up with acting as overseers of gangs of men brought by the C. P. R. We are told that police are detailed to stand on guard over men at work on the sections. Why so? The striking trackmen in the Territories have neither offered nor threatened violence to the scabs, nor have they interfered with the company's operations in any way. The single point where there were rumors of trouble was Carnduff, and it turned out that the cause of the crime committed there was in a striking foreman walking on the track.

## INNISFAIR CREAMERY.

The following is from the annual report of the Innisfair creamery appearing in the Free Lance:

Four years ago the company owned the government of \$5,714.46. It was paid to the government in that line \$3,026.75 which left a balance due the government at the end of last year of \$2,687.71. This amount will be further decreased by proceeds from the sale of several of the outlying properties which were sold during last year.

As showing the increase of the business since the department assumed control, the assessment of 1c per pound of make of butter during the following years was:

1897	\$386.21
1898	\$717.17
1899	\$800.40
1900	\$788.95
1901	\$894.02

It must not be forgotten, however, that the change in the method of conducting the business has had the effect of decreasing the value of some of the company's property. When the department commenced operations most of the milk was separated at the different stations in more or less large steam separators. This method did not give satisfaction, as the milk when turned to the patrons was unfit to feed calves. The result was that most of the patrons bought hand separators and creamed the milk at home. This rendered useless the large and expensive separators then belonging to the company and resulted in depreciation in value.

Cape Town, Aug. 6.—The Cape Times, in an editorial, has justly pointed out the change of policy announced in the report of Mr. Chamberlain in regard to the treatment of Boers who shot themselves. The Times says that close association with Boers, with the daily consequences of a career of brigandage, with the necessity of a change of policy.

## BACK FROM AFRICA.

Wm. Fielders, brother of John Fielders, of Poplar lake, and of the Misses Fielders, of town, returned from a five years' absence in South Africa on Saturday night. He is still suffering from the results of a severe attack of malarial fever, which was the immediate cause of his leaving Africa for a time. Mr. Fielders was a well known resident of Edmonton for a number of years and his visit will be welcomed by his very many friends. In the five years since he left Edmonton Mr. Fielders has visited England twice, has travelled South Africa from Cape Town to the Zambesi, has taken an active part in two wars, the Mashona war, which began about 1896, and the Boer war which is still in progress. Having served as a scout in the Northwest rebellion of 1895, he had no difficulty in securing service under the Chartered Company in the Mashona war. When the Boer war broke out he was at Bulawayo, occupying a responsible position in the employ of Hon. Cecil Rhodes. He left Bulawayo for Beira and Durban and joined Buller's forces before Ladysmith as scout. After the relief of Ladysmith he served in the same capacity under Lord Roberts. His services in each war were handsomely recognized by the Chartered Company and by the British Government respectively. Mr. Fielders speaks well of South Africa as a country to make money in. But there is no country like Canada to live in or make one's home. Already he finds his health much improved.

## LOCAL.

—Band practice to-night.

—C. Gallagher leaves in the morning for Winnipeg to visit his father, who is very ill.

—The contract for brushing the site of the station on this side of the river has been let to S. A. Bentley, who has had a number of men at work since Friday last.

—Medical health officer Dr. Bradshaw will attend at the town hall on Wednesday next at 10 a. m. and also at same place and hour on the following Saturdays to administer free vaccination to children of town residents, in compliance with the order in-council requiring vaccination of children attending school.

—C. C. Fairchild, D. L. S., with his survey party, reached Peace river and crossed his outfit on the 16th. He writes: I have had some experiences in my time, but this beats anything I have ever undertaken, what with small pox, rainy weather and "bad roads" I have undergone enough to fill a book. Still we are all here and all well. Mr. Fairchild goes to the vicinity of Dunsmuir to survey the tract of land granted by the Dominion government to the Peace river colonists, Lion company.
